Title of Invention : CONFIGURABLE TERMINAL CAPABLE OF
COMMUNICATING WITH VARIOUS REMOTE
COMPUTERS
Filed : July 10, 1997
Serial No. : 08/889,975

Assistant Commissioner for Patents
Washington, DC 20231

PRELIMINARY AMENDMENT

Dear Sir:

Please amend the above application, prior to calculating the filing fee, as follows:

IN THE CLAIMS:

☒ Please cancel claims 1-7

8. The method of communicating between a host computer and a remote terminal over a data network comprising steps of:

establishing a first communication session between said terminal and a communications server via a first communications channel;

downloading, from said server to said terminal, communications software for communicating between said terminal and said host and a table of screen recognition information;

utilizing said communications software and said table of screen recognition information to implement a second communications session between said terminal and said host via a second communications channel;

receiving, during said second communications session, at least one screen of
